To create a contextual framework for further research, the Ministry of Education (MoE) and the All India Council for Technical Education (AICTE) are offering more than 1000 internships to students to explore Indian Knowledge Systems (IKS) for a period of two months. The interns will work on short research projects, activities/workshops, etc. Their progress will be monitored through the monthly report submitted by them and their mentor's feedback. The interns will be encouraged to continue to work with the experts and advance the area of research through further collaborations even after the completion of the internship programme. (<https://iksindia.org/>)

Hence, Mumtaz College of Engineering and Technology, Hyderabad (1-6596191) is making efforts to “**encourage students to take-up internship and project work in Indian Knowledge System related Areas/Topics/Disaster Management**”.

Solar power is one of the solutions to overcome the energy discrepancy in the world. This is one of the renewable energy sources, and the generation of solar power does not have any adverse effect on the environment. Ministry of new and renewable energy, Government of India, is developing Solar / Green cities all over India under the green initiatives. For this, many of the organizations and institutions have come forward to install solar PV power plants which at-least would satisfy the institute power demand.

As a part of its 'Green Campus' initiative Anwar Ul Uloom College of Engineering and Technology, Vikarabad (1-10096671) has initiated for the proposed installation of "**grid connected solar rooftops/power systems**" of 100kWp Roof Top Solar PV Power Plant on its academic buildings which is spread over an area of 22,000 sq.ft. The proposed work is being assigned to M/s Budding Leaf Infratech Pvt. Ltd., Hyderabad for the installation and supply of Grid Connected Solar Rooftops/Power Systems. The details of the system are as below:

1. Type: 110kW Grid Tied Solar PV Power Plant
2. Solar array Capacity: 110 kW
3. Inverter capacity: High efficiency inverters suitable for 110kW solar power plant
4. Power generation: 132 MWh/year
5. Project life: 25 years
6. System cost: Rs 52,57,560 (Poly Module)
